How to reproduce the code

Required Soft-wares
1-angular latest(7.3.9 is recommended)
2-Node js
3-mongo db latest(greater than 3.0.0)

Step-1
Download the Zip file LivBim
extract the folder
you will find 2 folders inside it
Frontend
Backend

Step-2
run the command **npm install** in the 2 folders in the same hierarchy where **package.json** is there
It will download the node_modules it will take   some while once it is completed.

Step-3
Go to the frontend folder   and run in cmd **ng serve --open**(this will open yout application in loaclhost:4200)
Go to the Backend folder run in cmd   **nodemon server.js**(run the backend for you)

Step-4

Go to   the path of mongo db in your pc (for me **C:\Program Files\MongoDB\Server\3.0\bin>mongo**)

open the cmd and run **mongod**
